

## BRISBANE MARKETS – STAGE A

### Project Information

Client:	Brisbane Markets Limited
Consulting Engineer:	Cardno (Qld) Pty Ltd
Location:	Sherwood Road, Rocklea
Project Value:	\$4.2M
Project Duration:	40 weeks

---

### *Project Scope*

The construction of a 515 car space commercial carpark incorporating a future warehouse building pad.

---

### *Project Challenges*

The project involved 25,000m<sup>3</sup> of cut to fill and 60,000m<sup>3</sup> of imported fill in the Oxley Creek overflow catchment. The earthworks material on site needed remediation treatment due to its acid sulphate nature prior to the incorporation into the fill areas. The project also required close co-ordination with the consulting engineer and client to design and incorporate Brisbane Markets Limited's communications and logistical support requirements.
