

BRISBANE MARKETS – STAGE B

Project Information

Client:	Brisbane Markets Limited
Consulting Engineer:	Cardno (Qld) Pty Ltd
Location:	Sherwood Road, Rocklea
Project Value:	\$3.5M
Project Duration:	50 weeks

Project Scope

The construction of a four lane fully signalised intersection on a high volume and heavy loaded road.

Project Challenges

The project involved the construction of the works on very low subgrade CBR materials. The project also required close co-ordination and continual modification of the overall design with the consulting engineer and client to design and incorporate Brisbane Markets Limited's communications and logistical support requirements. In addition the works involved close co-ordination and communication with utility service providers (eg. gas, electricity, water) to incorporate the relocation and protection of services to enable the work to proceed without interruption to consumers.
